BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of January.* Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Bonds.	Bid.	Ask.	To Net.

† Prices are per share, not per cent. ‡ Sale price. x Ex-dividend.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ **Notice Change.**—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.
Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

REVIEW OF FEBRUARY.

While the stock market during February was decidedly irregular and the movement of prices more or less confused, particularly towards the close, the developments were all in line with those of the months immediately preceding. In other words, there was a continuation of the policy of concentration of interests in large corporations, both in the industrial and the railroad world, through a further extension and application of the principle of the community of ownership or through direct acquisition or consolidation.

At the very beginning of the month two important announcements were made, furnishing new proof of the tendency indicated. On the 1st of February official confirmation was received of the report that the Southern Railway Co. had the day before issued a circular offering to exchange its securities for the stock and bonds of the Mobile & Ohio Railroad Co. This meant the absorption of the smaller road by the larger. The arrangement was a mutually advantageous one and the stocks of both companies reflected the fact in rising prices. Mobile & Ohio stock particularly, which is given a guaranteed dividend, advanced in a very noteworthy way. The shares touched 80 February 25, against 44 January 21. On the 1st of February, too, intelligence was received that Union Pacific interests had gained control of the Southern Pacific property through the purchase of the Huntington-Speyer holdings of the stock of that company. At first it was supposed that the purchase had not been made on behalf of the Union Pacific itself but on behalf of the parties identified with it as the principal owners and active spirits in it. It soon appeared, however, that control was to pass directly to the Union Pacific, and the announcement subsequently came that the purchase would be financed by the issue of $40,000,000 Union Pacific Railroad 1st lien convertible gold bonds bearing 4 per cent interest. The new bonds will have a lien upon the unmortgaged property belonging to the Union Pacific, and also be secured by a pledge of securities owned by it and held in its treasury, but not including (and this fact served as an indication of the financial strength and resources of the Union Pacific) the Southern Pacific shares purchased, and to pay for which the new bonds are to be issued.

There is in this arrangement, it will be observed, no merger or consolidation of the two companies, which will remain distinct properties and be managed under their own separate organizations. The Union Pacific,

however, gets the advantage of a dominating interest in the Southern Pacific, thereby being able to control its management and direct its affairs. Necessarily, important benefits to the Union Pacific must result from this unification of the two properties. It ensures harmonious relations between the systems and thus is a safeguard against rate-cutting and other similar evils. In this sense, indeed, it must prove beneficial to all the roads west of the Mississippi, since with antagonism between the Union Pacific and Southern Pacific avoided an important advance will have been made towards placing the whole rate situation on an enduring and more stable basis. Control of Southern Pacific by the Union Pacific is also important in another way: it ensures to the Union Pacific the continued use of the Central Pacific, which forms part of the Southern Pacific system. As is well known, the Central Pacific and the Union Pacific together (the former extending from San Francisco to Ogden and the latter from Ogden to Omaha) constitute the original trans-continental route to the Pacific Ocean—that is, the first rail route opened across the Continent—and hence it was very desirable that amicable relations between them should be permanently secured.

There were some other developments indicative of the same fraternizing and harmonizing spirit. Of such character was the purchase by Mr. E. H. Harriman of the large German holdings in the Chicago Terminal Transfer RR., placing Mr. Harriman and his associates in control of that company. It is assumed that this step means the concentration of terminal facilities at Chicago in the interest of the many roads in which the Harriman people are so largely interested. The organization of the Railroad Securities Company by interests understood to be allied with the Chicago & Alton, Kansas City Southern, Union Pacific, etc., seems to have been undertaken (so far as can be judged at this time) with much the same objects in view—that is with the purpose of ensuring a community of interest between various properties. This concern has already acquired $8,000,000 of Illinois Central stock, and evidently intends to make other similar purchases of first-class properties.

Of course the most important event of the month was the formation by J. P. Morgan & Co. of the United States Steel Corporation for the purpose of taking over the Carnegie Company and various other companies prominent in the iron and steel trades. It hardly needs to be said that this is a colossal undertaking, and in magnitude far transcends all other transactions of a similar nature. Throughout the whole month this coming event had a most potent influence upon affairs. On the Stock Exchange early in the month great activity and buoyancy developed when it appeared that the difficulties in the way of the carrying through of this enormous undertaking had been overcome. Later the market halted and often displayed weakness, awaiting details as to the scheme. Obviously, in the case of the stocks of the companies to be absorbed everything depended upon the terms at which the same were to be exchanged for the securities of the new concern.

It was not until Tuesday the 26th that these terms became known, Mr. J. P. Morgan on that day authorizing an official statement showing for each stock the precise rate of exchange into the stocks of the new company. These terms, in many instances, varied greatly from current estimates, and hence a readjustment of Stock Exchange values of the various companies became necessary. Out of this there grew some wide and erratic fluctuations. The net result at the end of the month is a considerable decline for some of the prominent iron and steel stocks. Thus Federal Steel common closed on the 28th at 43, after having sold on the 7th at 55¼, and opened February 1st at 44½; American Steel & Wire common closed on the 28th at 38¼, after having sold at 53½ on the 11th and opened at 44⅝ February 1st; and National Tube common closed at 51½, after having sold at 70⅛ on the 6th and opened at 59 February 1st. These declines in the iron and steel shares had comparatively little adverse influence upon the railroad properties, which in many cases followed an independent course, some of them making important advances. Dealings the latter part of the month were on a greatly reduced scale, and aggregate sales for February were only 21,902,822 shares, against 30,285,055 shares in January. It is to be remembered, however, that February was a short month, that it contained two holidays, namely the 12th and the 22d, and that the Exchange was also closed on the 23d.

In the money market rates did not rise greatly, notwithstanding that the surplus reserves of the Clearing-House banks very heavily declined. The chief feature was the further decided increase recorded in loans and deposits, reflecting the many large undertakings under way or being carried through. The deposits reached one thousand million dollars for the first time on the 16th, and on the 23d, after some decline, were reported at $1,009,186,900.

The foreign exchange market was decidedly irregular, sterling moving now up, now down, though both sight bills and cable transfers closed half a cent lower on the 28th than on the first of the month. The Bank of England reduced its minimum rate of discount twice, first on the 7th, when the rate was marked down from 5 to 4½ per cent, and again on the 21st, when there was a further decrease to 4 per cent.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1901,*" were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of February*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Bonds.	Bid.	Ask.	To Net.

† Prices are per share, not per cent. ‡ Sale price. x Ex-dividend.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ **Notice Change.**—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

REVIEW OF MARCH.

The most important event during March was the great success of the United States Steel Corporation, the shareholders of the constituent companies having given their assent to the amalgamation with almost absolute unanimity. The time for the deposit of the shares of these companies expired on the 20th and at the close of that day it was announced that the smallest percentage of deposits in any case was 92, the amounts running from that up to 99 per cent. An extension of time was then granted up to and including April 1, and then Messrs. J. P. Morgan & Co. announced that over 98 per cent of the stock of the several companies had been turned in.

It cannot be said that the buoyancy and activity of Stock Exchange speculation was entirely due to the success of this, the largest industrial undertaking of modern times, for the market was independently strong and active. It served, however, to confirm the prevailing feeling of optimism, and to give a further impetus to the rising current of values. Declining bank reserves and a very strong foreign exchange market suggested caution against carrying the venturesome spirit of speculation too far, but otherwise domestic developments were all of a favorable character and such as to furnish a basis for improved prices. Congress adjourned on the 4th of the month, its tenure having expired on that day, and before adjournment a War Tax Reduction bill was passed, cutting down the yearly surplus in amount of about 40 million dollars. President McKinley was at the same time inaugurated for another term of four years. The iron trade, which by so many is regarded as a barometer of our industries, continued in a state of great prosperity, with values steadily advancing. Railroad earnings kept improving, and in the case of bituminous coal, which is one of the most important items of trunk line tonnage, a further advance of 10 cents per ton in the tolls to be charged was announced to go into effect April 1. The labor situation in the anthracite fields, which at the beginning of the month was looked upon as containing threatening possibilities of disturbance, was put in a shape where all likelihood of trouble was rendered out of question through the separate action of the various anthracite companies in agreeing to continue the 10 per cent advance in wages, made last October, for the year beginning April 1. The officials of the United Mine Workers felt discontented because the action did not involve recognition of the organization, and came to New

York prepared to demand such recognition, the penalty of refusal to be another strike, but finally concluded that discretion was the better part of valor, and on the 29th announced in a set of resolutions that there would be no strike.

Considerable progress was also made in the arrangements for carrying through certain large railroad undertakings. Thus the stockholders of the Pennsylvania Railroad gave approval to the proposition of an increase of 100 million dollars in the stock of the company, and half the amount was immediately offered to the shareholders for subscription at 120, or $60 per $50 shares. The Great Northern Railway arranged for an increase in its stock from 100 million dollars to 125 million dollars. There were a number of other favoring influences, such as the increase in the dividend on Milwaukee & St. Paul common stock from a basis of 5 per cent per annum to the basis of 6 per cent, and an increase also in the dividend on Southern Railway preferred. At the same time, shareholders (common and preferred) of the Milwaukee & St. Paul Company were given the right to subscribe for $8,822,520 new common stock at par, this being 10 per cent of their present holdings.

As in the previous month, the speculative atmosphere was full of rumors and reports of deals and new combinations, some of which had foundation and others not. The most important of these concerned a proposed arrangement for the absorption of the Chicago Burlington & Quincy in the interest of the Great Northern Railway and the Northern Pacific. The old story of a contemplated lease of the Delaware & Hudson by the New York Central was revived. The Denver & Rio Grande actually concluded an arrangement for the acquisition of the Rio Grande Western. It is not surprising that under these various stimulating agencies the advances in many different properties should have been very striking, and that the whole stock market should have manifested great strength and unbounded enthusiasm. The character of the market will be indicated by noting a few of the more conspicuous advances. Burlington & Quincy rose from 143¼ to 176½, Rock Island from 122⅛ to 136, North West. common from 172 to 184½, Delaware & Hudson from 162 to 174¾, Lackawanna from 192 to 220, Missouri Pacific from 87 to 103⅛. The low-priced shares were hardly less conspicuous, Erie common, for instance, rising from 27⅛ to 37⅛; Reading 2d preferred from 40 to 51⅞; Denver & Rio Grande common from 37⅝ to 49½; and Nickel Plate common from 19¾ to 37⅝. The transactions were on an enormous scale, the share sales for the month reaching 27,060,968 shares.

There were an unusual number of noteworthy incidents abroad. Chief among these of course was the capture of Aguinaldo, the leader of the Filipino insurgents, by Gen. Funston of the United States forces. The capture was effected through a clever piece of strategy. At one time during the month some anxiety was occasioned in European political circles owing to a threatened collision between the Russian and English troops at Tientsin in China because of a dispute concerning a piece of land. On the 21st news came that the trouble had been smoothed over through diplomatic channels. There was also considerable anxious discussion throughout the month over a proposed treaty between Russia and China, involving the control of affairs in Manchuria. It was considered that there was a possibility that the signing of such treaty might lead to hostilities between Russia and Japan, the latter resenting Russian aggresion. Expectations of an early close of the South African war were encouraged at the beginning of the month by reports of negotiations between Lord Kitchener and Gen. Botha in relation to the surrender of the Boer forces under the latter's command. These expectations were disappointed, as it later appeared that Gen. Botha had refused to accept the terms offered. These various incidents had a weakening effect upon English public funds, and British consols declined from 97 9-16 on February 28th to 95⅝ March 25, the close on March 31 being at 95 9-16.

The foreign exchange market was somewhat variable the first few days of March, but the rest of the month was almost continuously strong, and prices sharply advanced. A small amount of gold was shipped to Paris the latter part of the month.

The money market was free from disturbance, notwithstanding the U. S. Treasury through its operations absorbed considerable cash from the banks and notwithstanding also there were a number of large calls for money in connection with the financing of some important new undertakings. At the beginning of the month a $20,000,000 payment is understood to have been made by Union Pacific interests in connection with the Southern Pacific purchase, and the Pennsylvania RR. disbursed over six million dollars in paying for its purchase of Long Island RR. stock. On the 15th the Standard Oil Co. paid a 20-per-cent dividend, requiring $20,000,000, and on the 25th the call made by J. P. Morgan & Co. on the guaranty syndicate of the United States Steel Corporation matured; this being 12½ per cent on $200,000,000 involved $25,000,000. All these payments were effected without the least derangement in the market.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1901*," were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of March.* Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

† Prices are per share, not per cent. ‡ Sale price. x Ex-dividend. ¶ Ex-div. and ex-rights.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ **Notice Change.**—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.
Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

REVIEW OF APRIL.

Noteworthy though the preceding months of the year have been for buoyancy and activity in Stock Exchange speculation, the month of April has surpassed them all in these particulars. There appeared to be no limit either to the volume of business or the advances in prices. The speculation gained in force and ascendancy the further it progressed. No sooner was a new record made than it was itself eclipsed by a still heavier volume of business, and all the time the rise in prices steadily continued. Thus on Friday, the 19th, the sales aggregated 2,174,280 shares, surpassing the record made on January 7th, when 2,127,503 shares were dealt in and when for the first time the two-million mark was reached. But the following Monday (the 22d) the business comprised no less than 2,355,301 shares. Then for a few days the totals hovered close to or exceeded two million shares. On Monday, the 29th, the aggregate reached the extraordinary figure of 2,619,736 shares. The next day this total was itself surpassed with sales of 3,281,226 shares. The month also has to its credit the largest Saturday half-day business ever known, the transactions on Saturday, the 20th, footing up 1,182,936 shares, thus going ahead of the total for January 5th, which was 1,152,793 shares.

The month contained only 23 business days, Good Friday, April 5, and Saturday, April 6, being observed as holidays and the Exchange being closed on Saturday, April 27, preparatory to removal to the Produce Exchange, where dealings will be carried on during the next twelve months, pending the erection of the new Stock Exchange building on the present site. Nevertheless the sales for the month reach the extraordinary amount of 41,719,086 shares, comparing with 30,285,055 shares last January, the former maximum, and with 24,251,983 shares in January 1899, the previous high record. A better idea of the magnitude of these transactions will be obtained when we say that for the whole of the calendar year 1894 the sales were only 49,075,032 shares.

The latter part of the month prices advanced almost continuously, but in the early part occasional severe breaks were noted, which served to test the market, only however to reveal its strength. One of these breaks occurred after the Good Friday holiday, lasting from Thursday, April 4, to Monday, April 8. The market had closed strong on Thursday, and a buoyant opening had been looked for on Monday.

Instead of that, opening transactions were generally lower than the close the previous Thursday, and the first few minutes declines of several points were recorded by a number of stocks. Stress was laid upon the possibility of a strike on the Central Railroad of New Jersey (which however was averted), on the poor bank statement of the previous Saturday, and on the further fact that Mr. J. P. Morgan had sailed for Europe. Besides this the call loan rate for money advanced to 6 per cent. There also appeared to be extensive realizing sales. Altogether the tone was decidedly weak, and not a few persons argued that the upward movement had definitely culminated. The next day, however, the market proceeded on its upward course as if nothing had happened.

The stimulating influences in the rise in prices during the month were the new combinations effected or talked about in the railroad and industrial world, and the generally favorable course of events. At the beginning of the month it appeared that both the American Bridge Co. and Lake Superior Consolidated Iron Mines Co. were to form part of the United States Steel Corporation. There were also rumors of the absorption of other companies. United States Steel stocks, however, were inclined to be weak until the latter part of the month. From 49½ and 97½ for common and preferred, respectively, on the 2d there was a decline to 45⅜ and 93⅛ on the 22d; then came a change and on enormous transactions the price advanced, reaching 55 and 101⅞, respectively, on the 30th. Colorado Fuel & Iron, an independent property, rose from 55¼ April 1 to 108½ April 30 on the advent to control of John W. Gates. Amalgamated Copper on arrangements for consolidation with the Boston & Montana Copper & Silver Mining Co. and the Butte & Boston Consolidated Mining Co. and the restoration of friendly relations with the American Smelting & Refining Co. advanced from 99⅞ on the 1st to 128½ on the 20th; litigation had the effect of causing a reaction, and the close on the 30th was at 123⅛.

In the railroad list the most potent influence was the definite announcement of the arrangement for the absorption of the Burlington & Quincy by the Great Northern and the Northern Pacific, the terms being $200 in joint 4 per cent bonds for $100 of Quincy stock. Out of this combination there grew rumors of various other and perhaps still larger combinations. It was recognized that the consolidation of the three roads named might make necessary important changes among the remaining systems in that part of the country, and there were intimations of a union between the Milwaukee & St. Paul, the Chicago & North Western and the Union Pacific. Rumor was just as busy in other directions. There was talk of a combination of all the Gould roads in the Southwest, of the amalgamation of these roads with other Southwestern roads, of the absorption of one or all of the Mexican roads by the Rock Island or the St. Louis & San Francisco, of the probable acquisition of the Atchison by the Pennsylvania Railroad, of purchases of different stocks in the market for control, besides various other stories and reports too numerous to mention. The high-priced stocks were in special favor, though the upward movement extended to the entire list. Burlington & Quincy rose from 172¼ to 199¾, Northern Pacific common from 93⅝ to 119½, Union Pacific common from 89⅞ to 120, Milwaukee & St. Paul common from 151¼ to 175, North West. common from 183 to 212, Rock Island from 135¼ to 165, Baltimore & Ohio common from 90¾ to 106¾, New York Central from 146¼ to 164⅛, Chicago & Eastern Illinois common from 114 to 135¾, Atchison common from 61¼ to 78½, &c., &c., the highest price being in nearly all cases recorded on the very last day of the month.

Of course such phenomenal advances would not have been possible except that concurrently other conditions were extremely favorable. Trade remained active, railroad earnings extremely good, and strikes and labor troubles were averted. Then, also, reports regarding the growing winter-wheat crop were very encouraging. An event of the month was the negotiation of an issue of £60,000,000 new British consols (of which one-half had already been placed) and the participation of American bankers in the same, with resulting large subscriptions from this country. Apprehensions concerning the future of the money market were relieved by the action of the Secretary of the Treasury in purchasing bonds. The same circumstance no doubt also accounts for the indifference with which the resumption of gold exports the latter part of the month was regarded.

January 1 to April 30	234,320,650	250,620,880	271,913,670	395,541,270

The foreign exchange market, after early strength, declined under high money rates. This checked gold exports. Later sterling again advanced and gold exports were resumed. The Bank of Germany on the 22d reduced its discount rate from 4½ to 4 per cent.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1901*," were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

Boston Stock Exchange.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of April*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

† Prices are per share, not per cent. ‡ Sale price. x Ex-dividend. ¶ Ex-div. and ex-rights.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent. with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ Notice Change.—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.
Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

REVIEW OF MAY.

In a review of May, all other events and incidents sink into insignificance beside the panic in the stock market which occurred on the 9th, and which proved so disastrous to many holders of stocks. We have previously given our opinion as to the cause of that remarkable upheaval, and shall not endeavor to cover the same ground again here. The panic itself will always remain one of the most noteworthy occurences in the history of Wall Street and the Stock Exchange.

In the violence and extent of the decline—in the reckless slaughter of prices—the collapse was undoubtedly the worst experienced since the panic o 1873, when prices tumbled in such a way that the Stock Exchange authorities found it necessary to close the Exchange for a period of 10 days. Many of the breaks in prices the present year were decidedly worse than on that occasion. In one particular this year's disturbance will always remain unique. Panics in the stock market usually come after long-continued declines in values, during which accounts have become weakened and confidence been undermined, and they also as a rule are the product of periods of trade depression or financial derangements, when the outlook is poor or dubious. None of these concomitants were present on this occasion. The trade outlook has been and continues favorable in the extreme, and instead of receding prices with attendant heavy losses to holders of stocks, the situation had been just the reverse, a distinctive feature indeed being that for a period of six months—ever since the re-election of President McKinley last November—prices had been almost continuously rising, enriching holders and producing a feeling of speculative confidence having few, if any, parallels in the annals of the Stock Exchange. In a word, it was a panic without justification or warrant.

In the quick recovery which ensued—so quick that it was impossible to execute buying orders of any magnitude at anywhere near the extreme low figures—the present year's collapse manifested another distinguishing characteristic. In this we have reference more particularly to the quick rebound which occurred almost immediately; but it may be added that the recuperative powers of the market were also shown in the sustained advance in prices which developed after the panic had passed and dealers and investors had had time to consider its bearing and meaning. This advance brought prices in many instances back by the

close of the month to very near the high figures reached before the break. This recovery is the best evidence that there was no real ground for the collapse in the inherent conditions which determine values. It is a remarkable fact that there was no failure of a Stock Exchange house, notwithstanding the phenomenal collapse. There were a few disasters on the Consolidated Exchange, but these are not worthy of mention. This favorable outcome reflected, of course, strength and conservatism on the part of the members of the Stock Exchange, but it was also in a measure due to the quick rebound referred to in values.

The story of the decline in prices is told in our detailed Stock Exchange record for the month given on succeeding pages. We shall name here only a few typical illustrations. Atchison common on the day of the panic dropped from 78¼ to 43, Chesapeake & Ohio from 47 to 29, Milwaukee & St. Paul common from 165 to 134, Rock Island from 158 to 125, Delaware & Hudson from 165 to 105, Louisville & Nashville from 103¼ to 76, Manhattan Elevated from 120 to 83, Missouri Pacific from 103 to 72, St. Louis Southwestern common from 34 to 16, Southern Pacific Company from 49 to 29, Union Pacific common from 113 to 76, Amalgamated Copper from 116 to 90, American Smelting & Refining from 56½ to 39¾, &c., &c. All these losses came on top of considerable declines the two days preceding. It deserves to be mentioned that one aggravating circumstance in the collapse was the absence of many of the specialists, who had broken down under the great strain occasioned by the phenomenal activity of the weeks preceding. This threw the burden upon young, inexperienced hands, some of whom lost their heads in the demoralization. One instance is related of a broker who offered stocks down five and ten points at a time—literally offered them to the post, as it were, there being no crowd around that assembling point, and found no takers until some one chanced along.

As regards the lock-up (or corner, as it is termed,) of Northern Pacific common stock, which was the most noteworthy incident of the panic, this, as we have pointed out in the CHRONICLE, came about without design, being the result of a contest for control by two powerful interests. The trouble seems to have been precipitated by an order for 200,000 shares of stock, which was executed on Monday, the 6th. This developed such a scarcity of stock that the price that day rose from 114 to 133, and the next day advanced to 149¾, and on Wednesday the 8th got up to 180. Then it became almost impossible to borrow the stock for delivery, and as much as 300 per cent was paid for its use over night. On the day of the panic the price reached 1,000 on cash sales (that is, sales for immediate delivery) and 700 in the regular way. It was then that both J. P. Morgan & Co. and Kuhn, Loeb & Co. agreed not to enforce deliveries of the stock, and the announcement acted immediately to check the demoralization. Later, settlements were allowed to be made by these houses at 150. The London market, it soon appeared, was similarly involved, and a like course was pursued there, deliveries not being enforced, and finally settlements allowed at the London equivalent of 150.

The money market was deeply disturbed during the panic, and is generally looked upon as having been the cause of the same. For several days before that event, and indeed during April, there were developments—premonitory symptoms they might be called—which were not altogether assuring. The panic occurred on the 9th. On the 1st and 2d of the month the call loan rate at the Stock Exchange touched 6 per cent and on the 3d loans as high as 8 per cent were made. On Monday the 6th the rate went up to 10 per cent, the bulk of the business being at 7 per cent, and it was then stated that large amounts had been loaned at the higher figures. On Tuesday the range was from 5 to 10 per cent, with the majority again at 7 per cent. On Wednesday the range was from 4 to 25 per cent, with the bulk of the transactions at 8 per cent. On Thursday, the day of the panic, the situation became alarming, the rate advancing to 75 per cent. It was then that President Tappen of the Gallatin National Bank came to the rescue, and by organizing a syndicate of banks and bankers offered some 20 million dollars at market rates. This liberal supply, together with $6,000,000 loaned at 6 per cent by J. P. Morgan & Co., carried rates eventually down to 6 per cent, though there was an upward turn again at the close. This action of the banks, together with the course of Kuhn, Loeb & Co. and J. P. Morgan & Co. in agreeing not to enforce deliveries of Northern Pacific stock, saved the day and prevented general disaster. Thereafter normal conditions in the money market were soon restored, the high rate on Friday the 10th being 15 per cent, and on Monday the 13th 8 per cent. The last week of the month the range was at only 2@4 per cent.

The foreign exchange market may be said to have been strong throughout the month. Gold exports continued and reached a large aggregate amount. The flurry in money during the panic had no effect to check the prevailing course of the exchange market, but it did cause a partial suspension in business in exchange for the time being.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1901,*" were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

Boston Stock Exchange.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of May*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Bonds.	Bid.	Ask.	To Net.

† Prices are per share, not per cent. ‡ Sale price. x Ex-dividend. ¶ Ex-div. and ex-rights.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ **Notice Change.**—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.
Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
